1 Getting Started

Download **the official Global Games app**, from the App Store or Google Play.

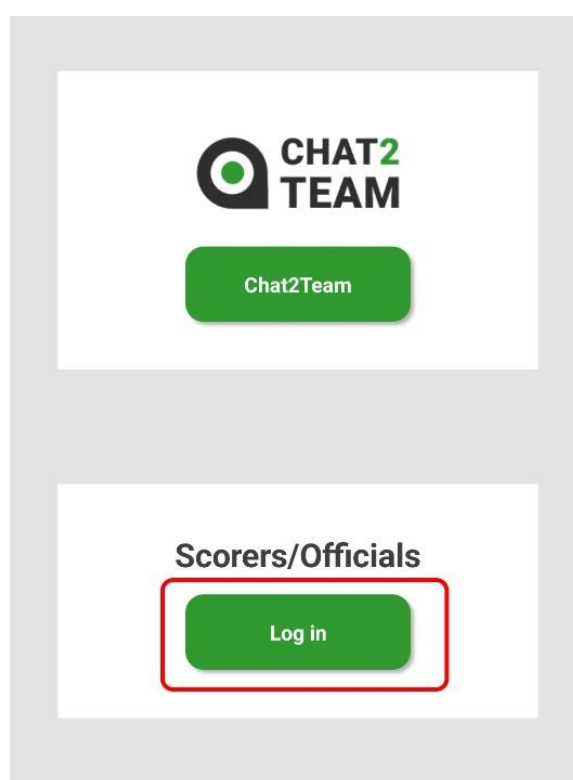

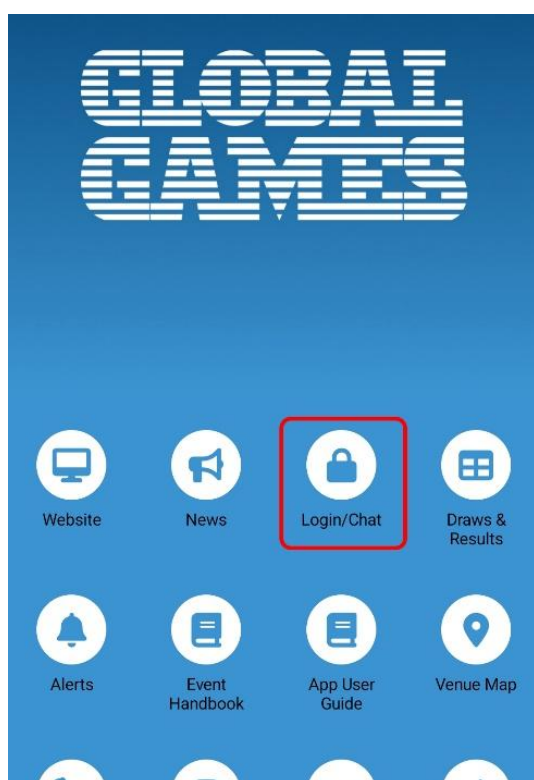

Referee's please refer to the [referees scoring user guide](#).

To submit a team sheet or score a game, you must first log in to the app using your [Team Access Code](#). This unique code gives you access to your specific team. If you are unsure of your Team Access Code, contact Global Games.

Note: If you are both a referee and also a coach/team manager/team scorer, you will use the same login for all roles. The options available once logged in will depend on your role. For example, referees cannot submit team sheets, so if you are logged in as a referee, this option will not be available.

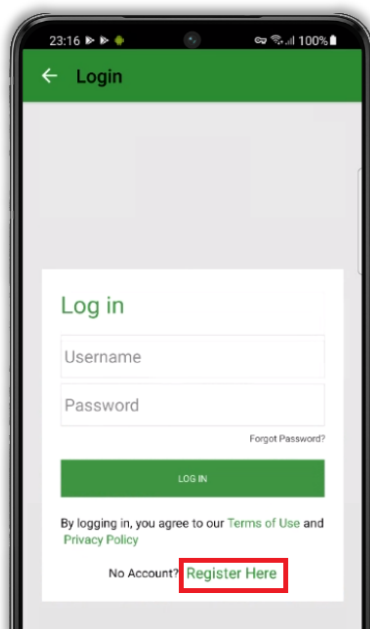

Important: If your team participated at the Global Games festival last year, you will have a new Team Access Code for this years' festival.

To begin, tap on the **Login/Chat** icon. Then **Login** for Scorers/Officials.

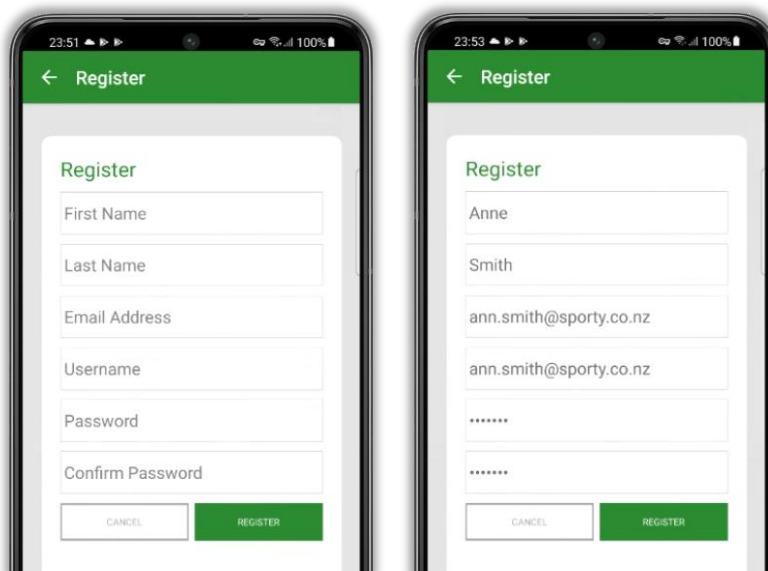

1.1 For new users

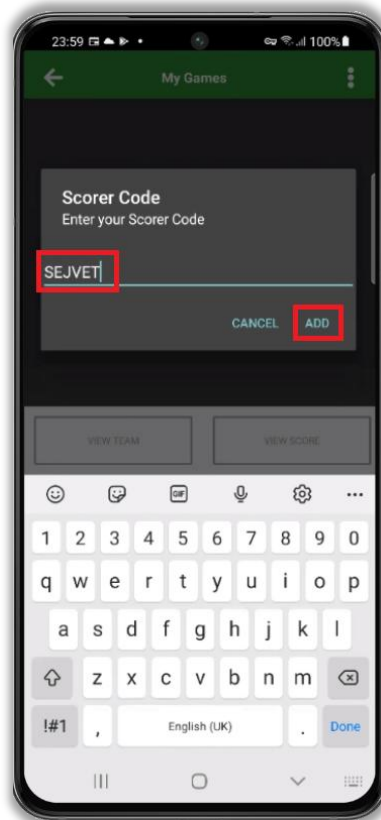

If you are new to Sporty and do not have a Sporty account, tap on the **Login/Chat** icon and then tap the **Register Here** option.

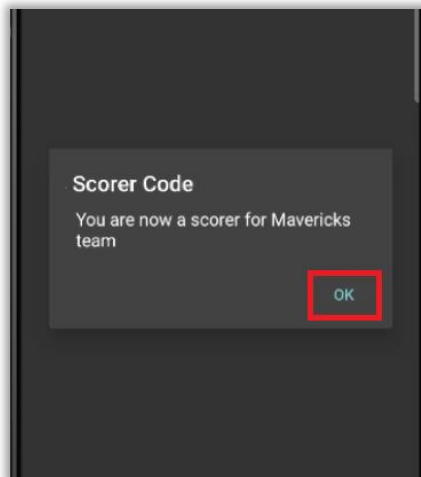

Enter your name and email address. A username will pre-populate for you, but you can change this if you wish. Choose a password, then re-renter. Tap **REGISTER**.

A confirmation message will appear at the bottom of the screen reading “Your registration is successful you will now be signed in.” You will be prompted to enter your Team Access Code and tap **ADD**.

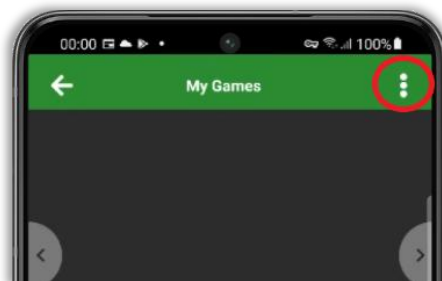

A message will come up confirming the team you now have scorer access to. Tap **OK**.

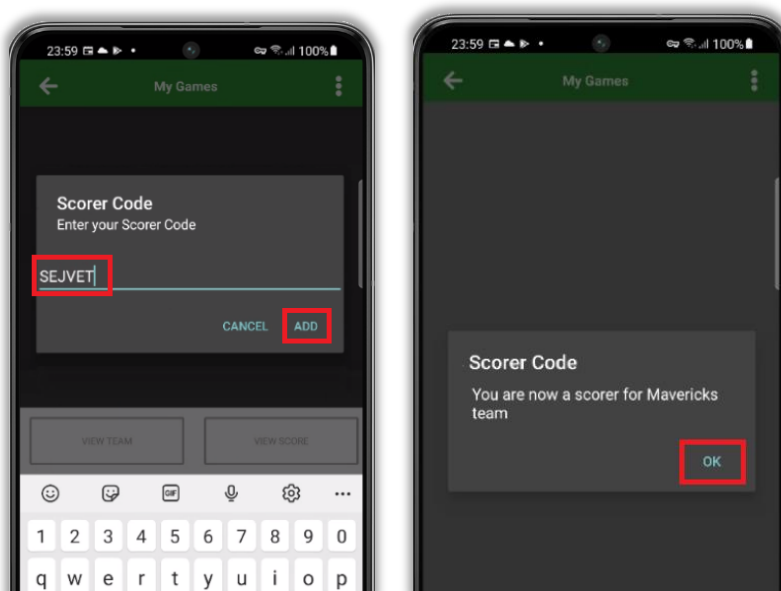

1.2 For existing users

If you are an existing Sporty user but have never logged in to the app, when you first login in you will be taken to a blank screen. Tap on the 3 dots icon in the top right corner of the screen. A pop up will appear, then tap Scorer Code.

Enter the 6-digit team access code and tap, **Add**. You will receive a confirmation message, tap **OK**.

The app will re-load to display the fixtures scheduled for your added team.

Repeat the above steps for each individual team that you are a scorer for.

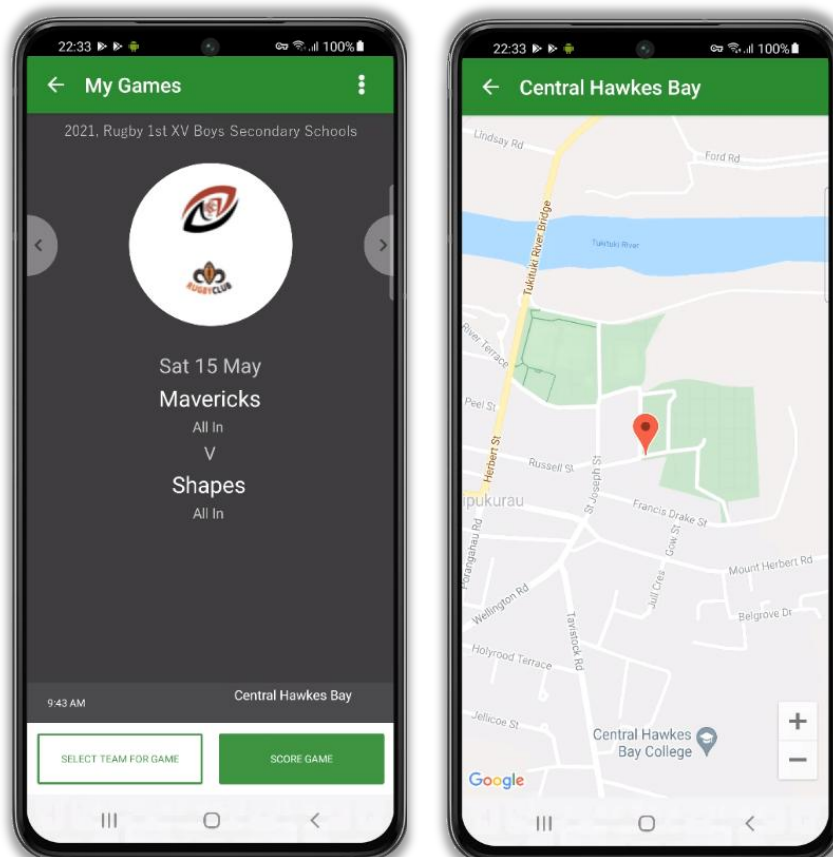

Note: You can use the same login details for each team, you do not need multiple logins.

When logged in, all games that you have access to will appear.

Swipe left or right to view your past or future games.

Tap on the name of the venue to see a map of its location.

If you login and can't see your game this is most likely because the games have not been published yet. Please contact Global Games to confirm.

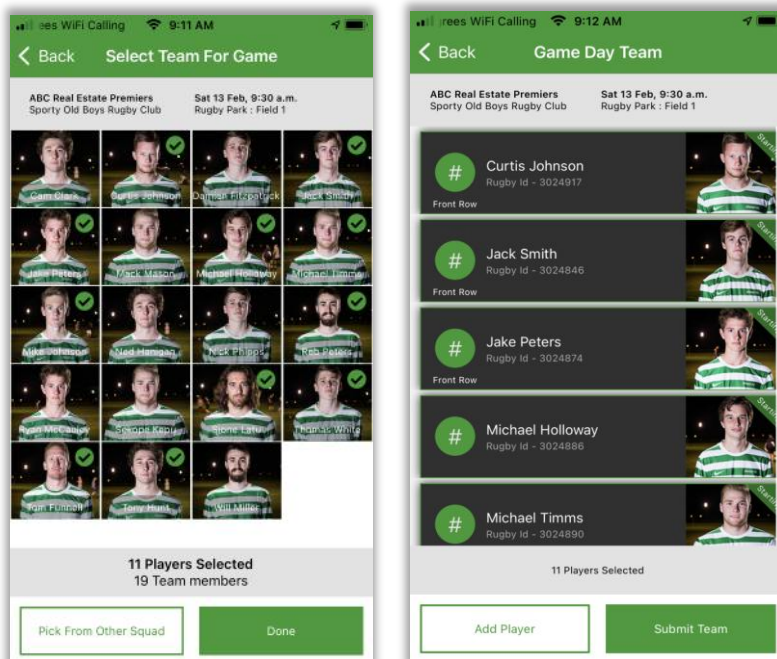

2 Team Selection

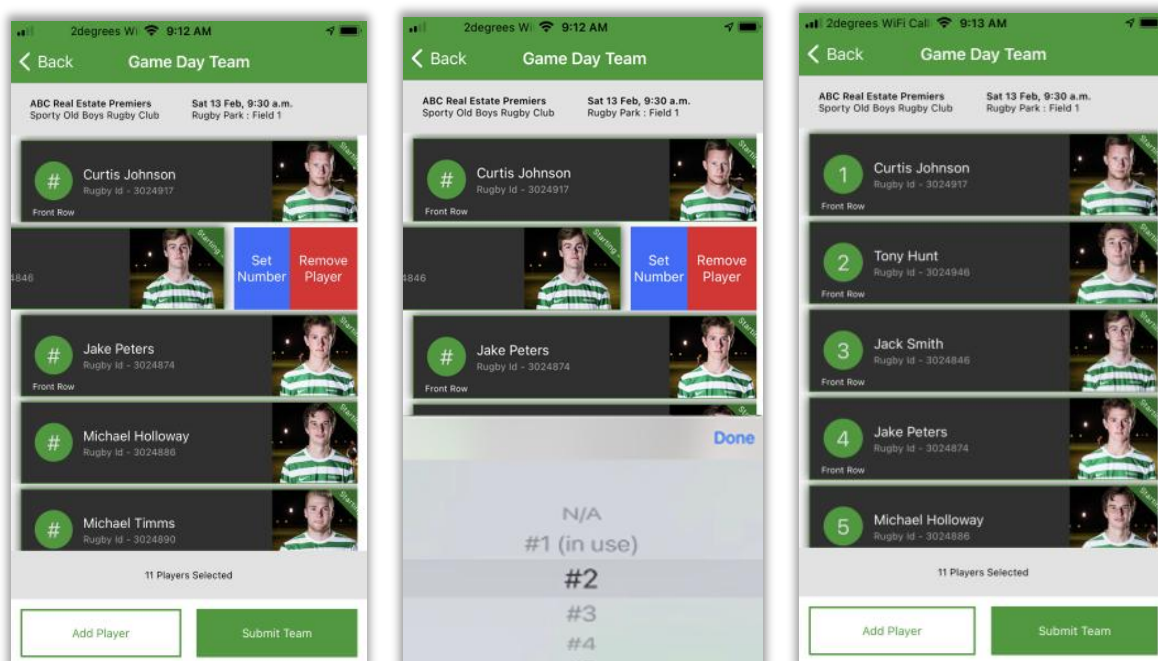

It is a requirement that each team must submit their Team Sheet.

Click **Select Team For Game**. All players who have been added to your team will display. Tap a player to select or deselect them. Selected players are identified with a tick.

Ignore the option to **Select from other Squad** and only pick from players from within your own team. Once you have selected all the players for your game, tap the **Done** button and your Game Day Team will be listed.

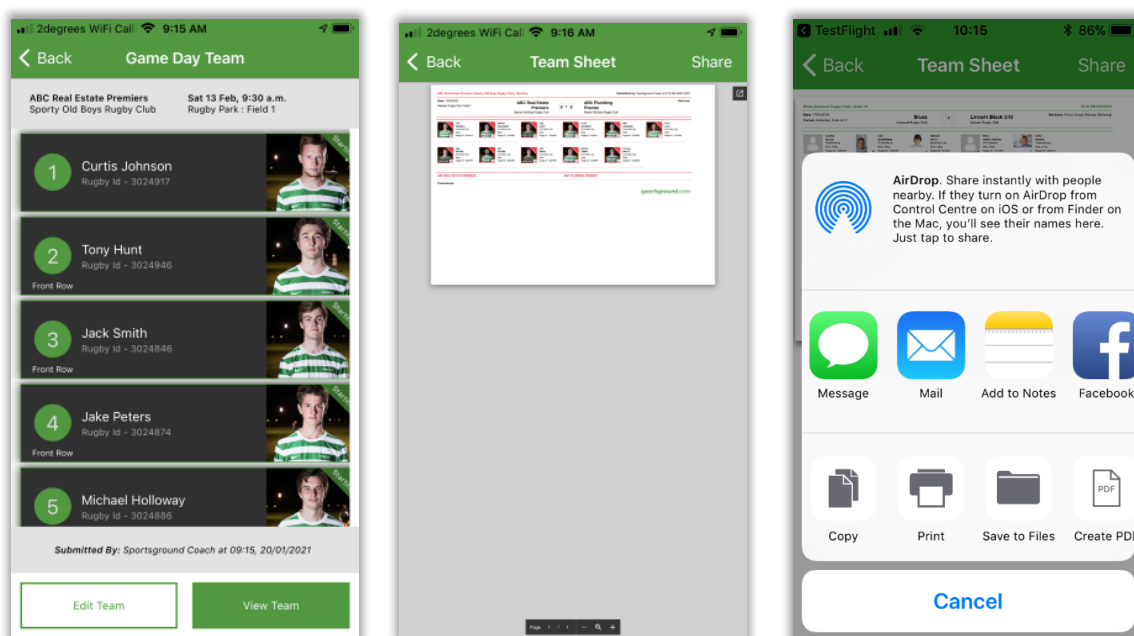

Optionally, you can set a jersey number for each player. Swipe the player to the left, then tap the blue **Set Number** button to select a number for the player, then tap **OK**. Once the jersey number has been selected, the number will appear in the selection list with "in use". This does not prevent the number from being selected again.

Note: You can remove players from your Game Day Team by swiping a player to the left and tapping **Remove Player**. This is the same as deselecting a player.

Once you have finished, tap the **Submit Team** button to confirm your team selection.

After submitting your team sheet, your opposition can view it by tapping your club logo in their app. You can view theirs by tapping their logo in your playlist. You can also download your team sheet as a PDF and share it by email.

3 Game & Referee Feedback

Before submitting the final score, Global Games requires each team to:

- i) select three MVP players from the opposing team
- ii) rate the opposing team for on-field sportsmanship, and off-field sportsmanship
- iii) submit feedback on the referee

Note: The requirements for submitting feedback and selecting MVP players may differ per festival. This will be communicated at the Team Managers meeting prior to the beginning of the festival. If you are unsure of the requirements for your festival check with Global Games.

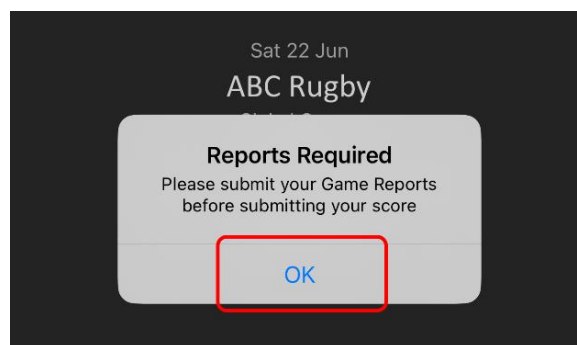

Note: This step can only proceed once the **opposing team has submitted their Team Sheet**.

3.1 Steps to submit Feedback:

From the home screen, click **Score Game**.

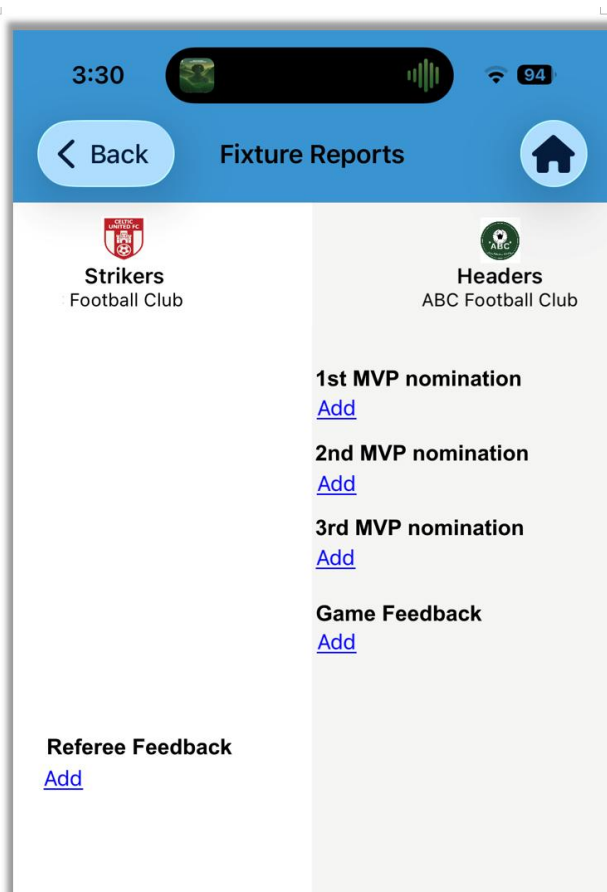

When the **Reports Required** pop up appears, click **OK**.

On this screen, you will see the reports required to be submitted for your festival.

Click **Add** under each report to submit your feedback.

There are three areas which require feedback:

- A. **MVP nominations:** select 3 players from the opposing team
- B. **Game Feedback:** On-field sportsmanship and Off-field management and supporters
- C. **Referee Feedback:** understanding of the game/rules, communication, and consistency

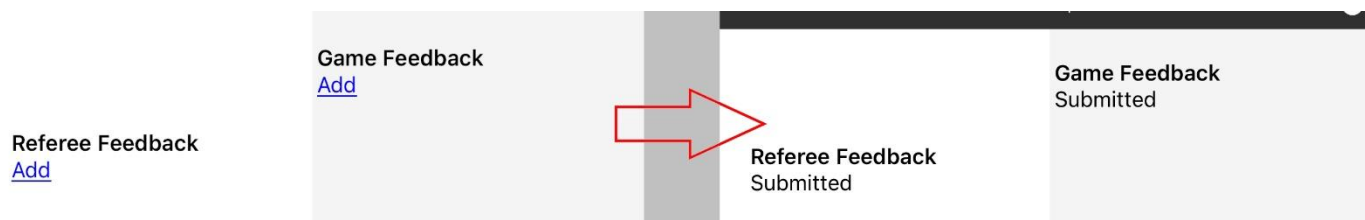

The image shows two side-by-side mobile app screens for feedback. Both screens have a blue header with a back arrow, 'Fixture Reports', 'Reports', and a home icon. The left screen is titled 'Game Feedback' and asks the user to rate each area using a scale from 1 (Very poor) to 5 (Outstanding). It has two dropdown menus: 'On-field sportsmanship *' (labeled A.) and 'Off-field management and supporters' (labeled B.). The right screen is titled 'Referee Feedback' and asks the user to rate each area using the same scale. It has one dropdown menu: 'Understanding of game/rules, communication & consistency *' (labeled C.). Both screens have a 'Submit' button at the bottom.

Click the **drop-down** for each area to select your rating, then **Submit**.

Rate each area using the below scale.

- 1. Very poor
- 2. Some bad points (more bad than good)
- 3. Expected behaviour (usual starting point)
- 4. Exceeds (more good than bad)
- 5. Outstanding

Once you have submitted feedback your reports screen now shows **Submitted**.

Now can now enter the final score.

4 Entering the Final Score

You are not required to score the game play by play, only to enter the **final score**.

The final score is the **total points scored by each team**. For example, if Team A scored 3 tries and Team B scored 5 tries, then:

Team A = 15

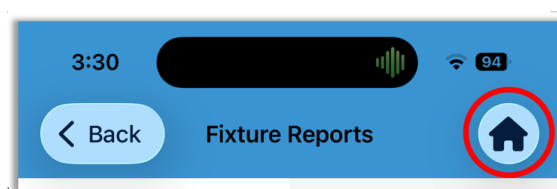

Team B = 25

(1 try = 5 points)

4.1 Steps to Submit the Final Score:

Complete the Game and Referee feedback reports.

Click the Home icon to return to the home screen.

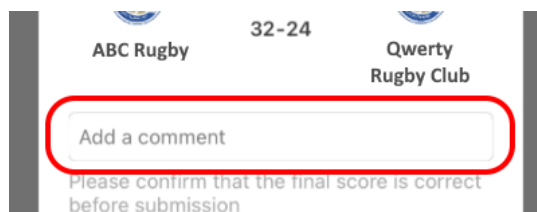

Click **Score Game**, then **Enter Final Score**.

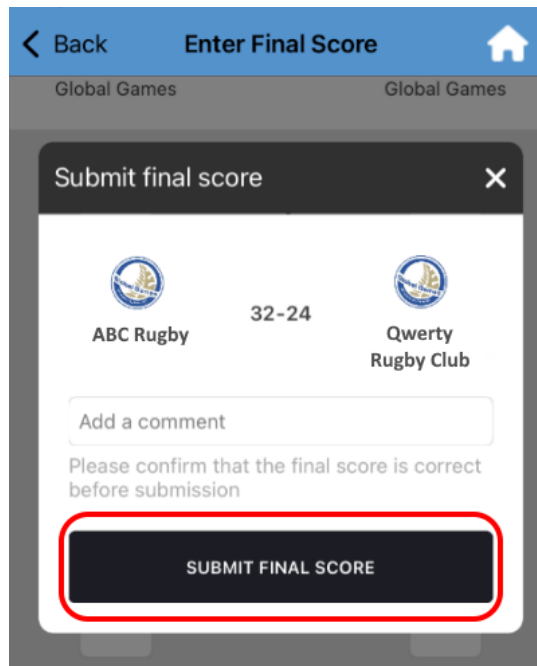

Enter the final score for each team and click **Submit Score**.

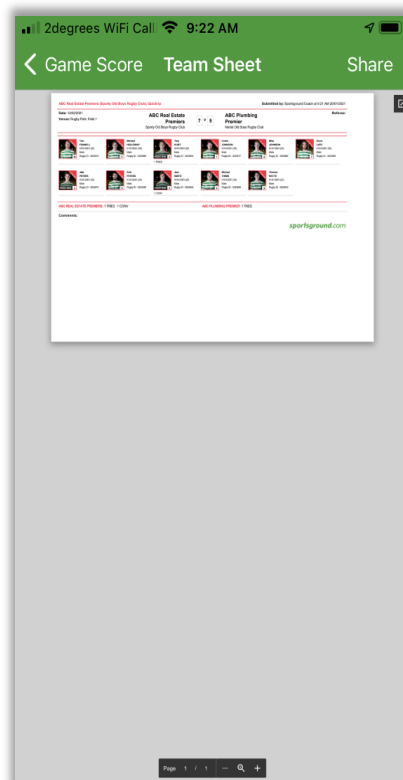

Enter a comment about the game if you wish. *Please note this comment is not visible to the opposition team.*

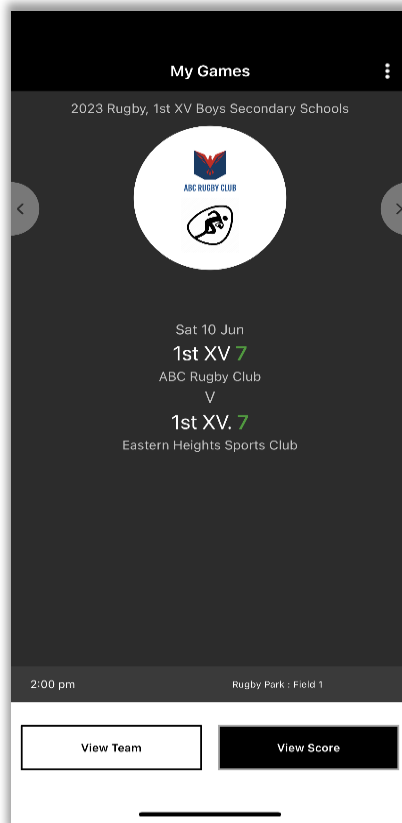

Once you have confirmed that the final score is correct, click **SUBMIT FINAL SCORE**.

You can tap the **View Match Report** button to see a completed PDF of your match report for the game.

The final score will display against the game in your playlist.

5 Update Player Details/Player Photo

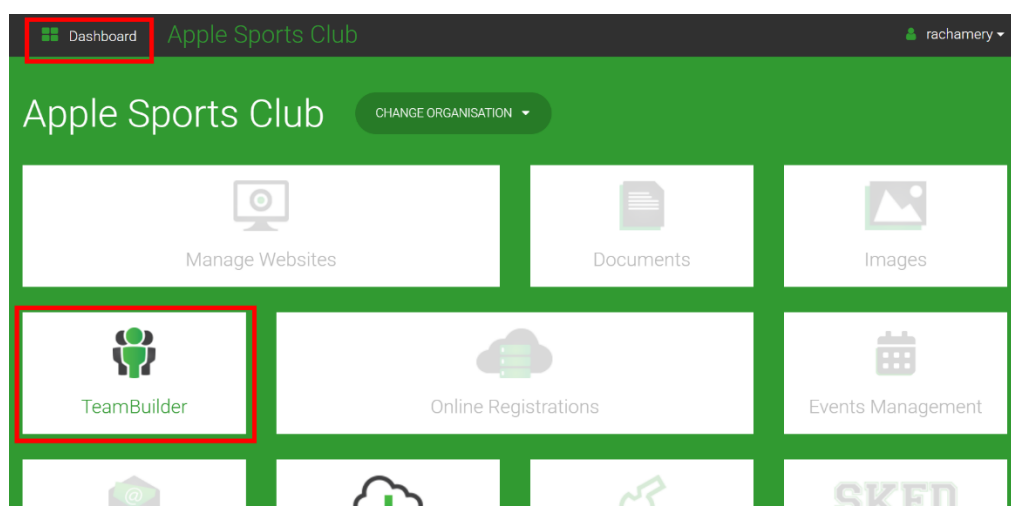

You may need to update a player's details or to replace a profile player's photo, **this cannot be done via the app.**

Instead, you'll need to access your team by either:

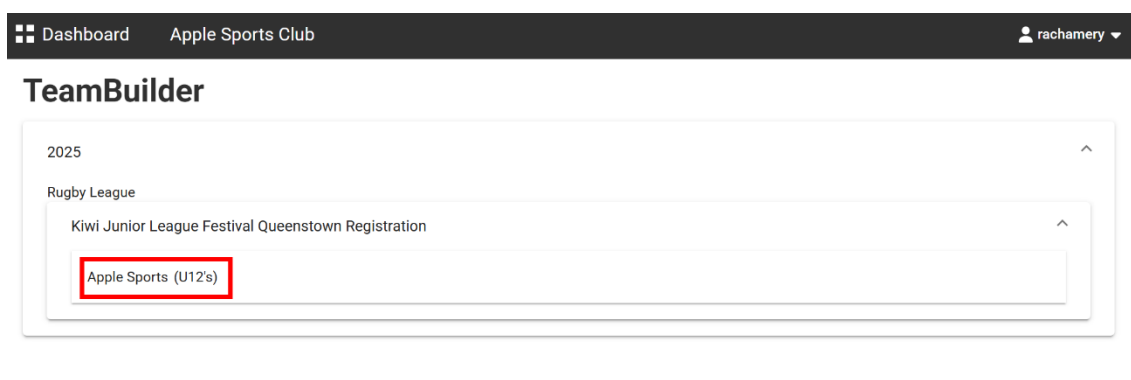

- Using the link provided in the Team Entry Confirmation email, or
- Logging in at www.sporty.co.nz/login with your username and password.

Once logged in:

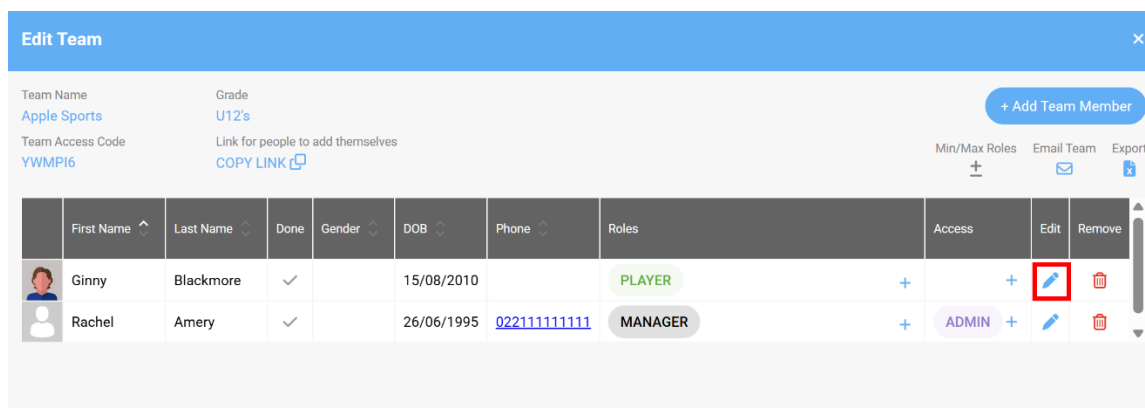

1. Go to the **Dashboard**.
2. Select the **TeamBuilder** tile.

3. Choose the team.

Click the **edit pencil** beside the player who you want to update.

This opens the players' registration form.

Update the players details, then click **Submit** to save the form.

If you're updating a player photo, scroll down until you reach the **Photo** question field.

Edit Team

6 App Connectivity

During festivals, there are more people using WiFi than usual, so connectivity may be slower. If needed, try turning off WiFi and using mobile data instead.

It is possible to enter game events, referee feedback, and final scores while offline - these will upload once you are back online.

- **Loading for the first time.** When you login to the app for the first time, please ensure your phone is connected to the internet (either WiFi or data). The app will download all your relevant game information the first time you login, including the details of players in your team. This may take a minute or two.
- **Working offline.** The app is designed to work offline. However, if you plan to use the app without internet connection it's recommended that you open the app while online before the game to sync the latest information.

If your connection is poor, you will see a yellow message:

“Poor connection, app is offline. Click here to reconnect”.

If your device is offline:

- You will not be able to submit your team sheet or view the opposition's team sheet
- You may see messages such as:
 - “Team sheet not been sent”

- “Results not sent”

To resend once you're back online:

- Close and reopen the app
- Click the **Officials** icon (for team sheets), or
- Click the **Login/Chat** icon (to submit feedback and final score)
